### What is Broadway 2T ?

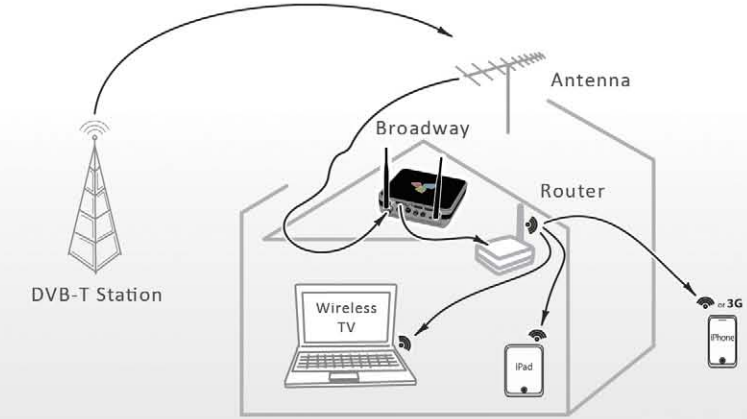

This state of the art product developed by PCTV Systems offers you the possibility to watch TV within your network, regardless if your network is wired or wireless. Thanks to the integrated dual DVB-T tuner, Broadway 2T streams digital TV to clients like mobile Apple® devices (iPhone®, iPod touch®, iPad®) connected to your local network. You just need a web browser on the mobile client you want to use for accessing Broadway 2T.

To start watching TV, you just have to connect Broadway 2T to the router of your network and run the setup procedure. Now you can access Broadway 2T using your mobile Apple® device connected to your network and enjoy the TV program.

And last but not least, since your router is connected to the Internet you can simultaneously watch TV and surf the Internet.

Broadway 2T can be connected to the router either wired or wireless. In addition to the LAN-access you can access Broadway 2T also from the Internet (WAN-access).

**For detailed information please refer to the Broadway user manual on your CD or on our website: <http://distan.tv/manuals>.**

### Initial Broadway 2T Setup

#### Step 1 UNPACK

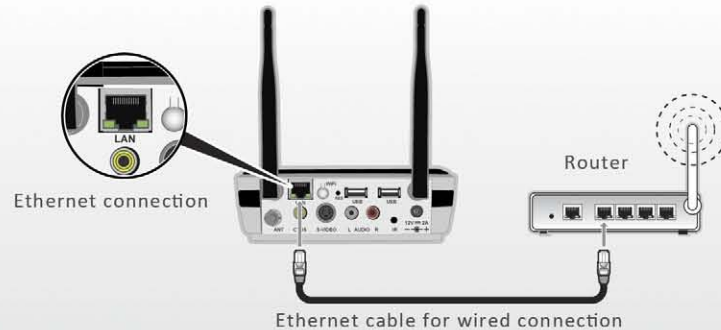

Check that your package includes the following:

- Broadway 2T
- Power supply unit with adapter
- Ethernet cable
- DVB-T mini antenna
- IR-Blaster cable (for future purpose)
- 6 (4 + 2 spare) rubber feet
- Wall mounting kit (2 screws / 2 wall plugs / drilling template)
- Quick Start Guide
- CD with TVCenter for Windows and documentation

#### Step 2 CONNECT TO THE ROUTER

Use the provided Ethernet cable to connect Broadway 2T to the router of your home network.

**Important: Make sure the router is connected to the Internet.**

#### Step 3 CONNECT TO THE POWER SOURCE

Insert the included power supply adapter into the body of the power supply unit.

Connect your Broadway 2T to a wall socket using the provided power supply unit.

**Caution: you may use Broadway 2T only with the provided power supply unit.**

Broadway 2T starts automatically. Wait until the LED stops blinking. Broadway 2T is now ready for use.

### Access Broadway 2T and Follow the Wizard's Instructions

#### Step 4 ACCESS BROADWAY 2T

For this step an Internet connection is required.

1. Connect your mobile Apple® device to your home network.
2. Start the web browser of your mobile Apple® device.
3. In the URL-address field type in: **distan.tv**.
4. The mobile user interface opens with the login dialog.

5. Enter the default Administrator Password: **admin**.

**Note: For your own safety make sure to change the default password.**

6. The Broadway Setup-Wizard opens.

**Note: for alternative acces possibilities, refer to the Broadway user manual.**

#### Step 5 FOLLOW THE INSTRUCTIONS OF THE SETUP-WIZARD

The Wizard will guide you through the Broadway 2T setup procedure helping you to configure the device connection to the router and run the first channel scan.

1. Select the way you want to operate your Broadway 2T: wired or wireless.
2. Follow the instructions and make sure to:
  - Connect the antenna as shown in the illustration on the right when prompted to do so.
  - Select the correct **Location** when setting the channel scan parameters.

*Only this way the channel scan will be accurate.*

#### Step 6 WATCH TV

After successfully completing the Wizard the **Live TV** page opens.

From the channel list select the desired channel and enjoy the TV program.

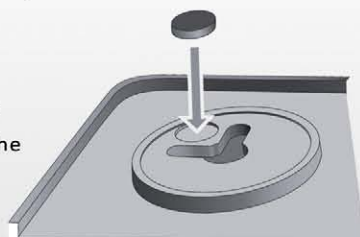

### This might also help...

#### BROADWAY 2T PLACEMENT

Depending on the site where you want to place your Broadway 2T, you can either mount it on the wall or place it on a flat surface.

If you decide to mount Broadway 2T on the wall, use the provided wall mounting kit.

If you rather prefer to place it on a flat surface, first attach the rubber feet as shown in the illustration on the right.

#### TV RECEPTION - USEFUL TIPS

For best DVB-T reception we recommend to use a rooftop antenna.

If you use the provided DVB-T mini antenna place it at the location in your home with the best DVB-T signal.

Use the A/V inputs to connect an external analogue video source to your Broadway 2T.

Reception depends on your location and can be impaired by steel-reinforced walls as well as tall neighbouring buildings.

#### CE/FCC CONFORMITY

PCTV Systems S.à r.l. hereby declares that this TV reception equipment complies with the fundamental requirements and other relevant terms and conditions of EC directive number 2004/108/EEC.

The EC declaration of conformity and identical construction can be downloaded from <http://www.pctvsystems.com/compliance>.

#### IMPORTANT INFORMATION
